Deep operation (Russian: Глубокая операция, *glubokaya operatsiya*), also known as Soviet Deep Battle, was a military theory developed by the Soviet Union for its armed forces during the 1920s and 1930s. It was a tenet that emphasized destroying, suppressing or disorganizing enemy forces not only at the line of contact, but throughout the depth of the battlefield.

He isn't, and he probably won't face any consequences because Washington is designed to absorb

scandals--politicians get away with crimes far worse than trump's on a daily basis--but what is different here is the public is actually paying attention and wants accountability, and both democrats and republicans aren't sure how to act because they are so used to getting away with this kind of thing.

Precursors to Genocide. After Germany's loss in WWI, the Treaty of Versailles punished Germany by placing tough restrictions on the country. The treaty made Germany take full responsibility for the war, reduced the extent of German territory, severely limited the size and placement of their armed forces, and forced Germany to pay the allied powers reparations.
