Global governance or world governance is a movement towards political cooperation among transnational actors, aimed at negotiating responses to problems that affect more than one state or region. Institutions of global governance—the United Nations, the International Criminal Court, the World Bank, etc.—tend to have limited or demarcated power to enforce compliance.

Hinduism is a religion that originated in the Indian subcontinent. Purists refer to it more as Sanātana Dharma (the eternal path/law) than a religion, as it is believed to be a virtuous way of life.. It is the oldest practised religion in the world and has the third largest following after Christianity and Islam.. It has over a billion practising followers, 90% of whom live in South Asia ...

This report finds that, despite being the global leaders in open data today, these governments still have a long way to go to move from promise to progress on open data implementation and impact. For the open government data movement to not only survive but thrive, governments need to radically change their approach to open data and focus their efforts on data governance.
