The Art and Science of Ernst Haeckel - TASCHEN Books

Publication. Originally published in sets of ten between 1899 and 1904 and collectively in two volumes in 1904, it consists of 100 prints of various organisms, many of which were first described by Haeckel himself. Over the course of his career, over 1000 engravings were produced based on Haeckel's sketches and watercolors; many of the best of these were chosen for Kunstformen der Natur ...

Colossal | Art, design, and visual culture. German biologist and artist Ernst Haeckel dedicated his life studying far flung flora and fauna, drawing each of their peculiar specificities with an immense scientific detail. Haeckel made hundreds of such renderings during his lifetime, works which were used to explain his biological discoveries to a wide audience.
