### **How To Design Precast Segmental**

As its name implies, a segmental bridge is a bridge built in short sections (called segments), i.e., one piece at a time, as opposed to traditional methods that build a bridge in very large sections. The bridge is made of concrete that is either cast-in-place (constructed fully in its final location) or precast concrete (built at another location and then transported to their final location ...

Jensen Precast is among the largest independently owned precast concrete companies in the United States. Precast concrete is our only business, and our 50 years of expertise reflects that singular concentration.

### **Jensen Precast - Precast Concrete Manufacturer Serving ...**

Precast concrete is a construction product produced by casting concrete in a reusable mold or "form" which is then cured in a controlled environment, transported to the construction site and lifted into place ("tilt up"). In contrast, standard concrete is poured into site-specific forms and cured on site. Precast stone is distinguished from precast concrete using a fine aggregate in the ...

SEGMENTS, SUMMER 2002, VOL. 41. The Ringling Causeway Bridge is a replacement structure for an existing two-lane bascule bridge over the Ringling Causeway located in Sarasota, Florida. The existing bridge is obsolete and its requirement to regularly open for navigational traffic causes the roadway traffic to back up into adjacent intersections near the bridge.
