The suggested collection of mathematical folklore might be enjoyable for mathematicians and for students because every joke contains a portion of truth or lie about our profession.

Math jokes collection by Andrej and Elena Cherkaev

Particles of the air have large spaces between them. On the other hand, wood has little space between its particles. Also, it is rigid. For this reason, we can easily move our hands in the air, but

to do the same through a solid block of wood, we need a karate expert.

Chain Home, or CH for short, was the codename for the ring of coastal Early Warning radar stations built by the Royal Air Force (RAF) before and during the Second World War to detect and track aircraft. Initially known as RDF, and given the official name Air Ministry Experimental Station Type 1 (AMES Type 1) in 1940, the radar units themselves were also known as Chain Home for most of their life.

Writers use tenses to give a particular meaning. The writer might be trying to emphasise the currency, regularity or even ownership of an idea. Some tenses are therefore used more than others in academic English. The simple tenses are used for events which are immediate facts (or strong predictions ...
