

Penguin Dictionary Of Psychology

Penguin Dictionary Of Psychology

"Fixation" (German: Fixierung) is a concept (in human psychology) that was originated by Sigmund Freud (1905) to denote the persistence of anachronistic sexual traits.

Fixation (psychology) - Wikipedia

A dream dictionary is a tool made for interpreting images in a dream. Dream dictionaries tend to include specific images which are attached to specific interpretations. However, dream dictionaries are generally not considered scientifically viable by those within the psychology community.

Dream interpreters often suggest that dreams about pregnancy represent everything from creativity to fear. David C. Lohff, the author of Dream Dictionary, believes that pregnancy dreams might sometimes represent a woman's fears of being an inadequate mother. Author Tony Crisp, on the other hand, suggests that such dreams indicate that the dreamer is developing some area of potential or ...

The Crucible: (Penguin Orange Collection) by Arthur Miller ...

Analytical psychology distinguishes between a personal and a collective unconscious. The basic assumption is that the personal unconscious is a potent part—probably the more active part—of the normal human psyche. Reliable communication between the conscious and unconscious parts of the psyche is necessary for happiness.

Analytical psychology - New World Encyclopedia

IT IS a truth universally acknowledged, that a single man in possession of a good fortune must be in want of a wife. However little known the feelings or views of such a man may be on his first entering a neighbourhood, this truth is so well fixed in the minds of the surrounding families, that he is considered as the rightful property of some one or other of their daughters.

A POSTERIORI: In rhetoric, logic, and philosophy, a belief or proposition is said to be a posteriori if it can only be determined through observation (Palmer 381). In general, these are inductive arguments in which the thinker puts forth a belief or proposition as a universal rule she or he puts forth in response to an example seen in nature--the specific observed example comes first, and the ...
