### **CREDIT | meaning in the Cambridge English Dictionary**

Credit (from Latin credit, "(he/she/it) believes") is the trust which allows one party to provide money or resources to another party wherein the second party does not reimburse the first party immediately (thereby generating a debt), but promises either to repay or return those resources (or other materials of equal value) at a later date. In other words, credit is a method of making ...

Loan vs. Lend: Usage Guide. The verb loan is one of the words English settlers brought to America and continued to use after it had died out in Britain. Its use was soon noticed by British visitors and somewhat later by the New England literati, who considered it a bit provincial. It was flatly declared wrong in 1870 by a popular commentator, who based his objection on etymology.

### **Lend | Definition of Lend by Merriam-Webster**

Defining subprime risk. The term subprime refers to the credit quality of particular borrowers, who have weakened credit histories and a greater risk of loan default than prime borrowers. As people become economically active, records are created relating to their borrowing, earning and lending history.
