In microeconomics, marginal revenue (MR) is the additional revenue that will be generated by increasing product sales by one unit.. In a perfectly competitive market, the additional revenue generated by selling an additional unit of a good is equal to the price the firm is able to charge the buyer of the good. This is because a firm in a competitive market will always get the same price for ...

Demonology is the study of demons or beliefs about demons, especially the methods used to summon and control them. The original sense of "demon", from the time of Homer onward, was a benevolent being, but in English the name now holds connotations of malevolence. (To keep the distinction, when referring to the word in its original Greek meaning, English may use the spelling "Daemon" or "Daimon".)

Briggs (2003) suggests that effective pain management is a basic right and a complex nursing skill that requires a proactive approach. This places nurses in a unique position, as of all healthcare professionals they spend the most time with patients and therefore must be competent in pain management (Musclow et al, 2002).

I had lots of leftover royal icing from my last Valentine's cupcakes, so I decided to make some more royal icing decorations using these Martha Stewart Valentine stickers as my design.. As I was making these I recieved an email from Bianca, asking me how long I keep the royal icing in the piping bag and how long I keep it in storage.
