Entrepreneurship and Economic Development: Theory ...

Entrepreneurship is the process of designing, launching and running a new business, which is often initially a small business. The people who create these businesses are called entrepreneurs. [need quotation to verify] Entrepreneurship has been described as the "capacity and willingness to develop, organize and manage a business venture along with any of its risks in order to make a profit."

Entrepreneurship - Wikipedia

In 1960's, Edwin Locke put forward the Goal-setting theory of motivation. This theory states that goal setting is essentially linked to task performance. It states that specific and challenging goals along with appropriate feedback contribute to higher and better task performance.

An entrepreneurial spirit is at the heart of the work we do across the Kauffman Foundation every day. Our founder, Mr. Kauffman, believed it was a fundamental right for anyone who had a big idea to be able to bring it to life. We work with entrepreneurs, empower them with tools and resources, and work to break down barriers that stand in the way of starting and growing their businesses.

Knowledge entrepreneurship describes the ability to recognize or create an opportunity and take action aimed at realizing an innovative knowledge practice or product. Knowledge entrepreneurship is different from 'traditional' economic entrepreneurship in that it does not aim at the realization of monetary profit, but focuses on opportunities with the goal to improve the production (research ...
